Lab Task 2

Program 1:

task1.py > ...

```python
shopping_list = {}
while True:
    item = input("Enter an item (or press Enter to finish): ").strip()
    if not item:
        break
    quantity_input = int(input(f"Enter the quantity for {item}: ").strip())
    if quantity_input < 1:
        print("Please enter a positive number.")
    else:
        shopping_list[item] = int(quantity_input)
print('''  Final shopping list:  ''')
for item, quantity in shopping_list.items():
    print(f"{item} : {quantity}")

```

Output:

```
PS E:\Study Material\5th Semester All Data\Sir Umer Haroon - Software Construction and Developmen
t (Lab)\Lab Task 2> python .\task1.py
Enter an item (or press Enter to finish): bag
Enter the quantity for bag: 2
Enter an item (or press Enter to finish): shop
Enter the quantity for shop: 3
Enter an item (or press Enter to finish): bag
Enter the quantity for bag: 4
Enter an item (or press Enter to finish):

Final shopping list:
bag: 4
shop: 3
PS E:\Study Material\5th Semester All Data\Sir Umer Haroon - Software Construction and Developmen
t (Lab)\Lab Task 2>
```

Program 2:

task2.py > ...

```python
inventory_list = []
while True:
    user_input = input("Enter an item (or type 'done' to finish): ").strip().lower()
    if user_input == "done":
        break
    if not user_input:
        continue
    if user_input.startswith("remove "):
        item_to_remove = user_input[7:].strip()
        if item_to_remove in inventory_list:
            inventory_list.remove(item_to_remove)
            print(f"Removed: {item_to_remove}")
        else:
            print(f"Item not found: {item_to_remove}")
    elif user_input in inventory_list:
        print(f"Item already exists: {user_input}")
    else:
        inventory_list.append(user_input)
        print(f"Added: {user_input}")

inventory_list.sort()

print("\nFinal inventory:")
print(f"Total items: {len(inventory_list)}")
for item in inventory_list:
    print(item)

```

Output:

```
PS E:\Study Material\5th Semester All Data\Sir Umer Haroon - Software Construction and Development (Lab)\Lab Task 2> python -u
ll Data\Sir Umer Haroon - Software Construction and Development (Lab)\Lab Task 2\task2.py"
